

Business Proposal

1. Purpose Of Document.

The purpose of the document showcases all the technicals & financials involved in the project like project goal, Technical staks, Payment plan, support, Terms & conditions.

2. Project Goal.

The purpose behind commencement of this project is to create a mobile application which will enable users to find the Building materials online in different locations, generate an enquiry online

The platform will allow the users to come on the board and register themselves. The users will be able to send the requirement online to search the Building materials by applying the search filtration. The user will be able to search the building materials by filtering the category, locations, pricing, material type, when the user will send the request, all the nearby vendors will receive the enquiries.

The vendor can register themselves by providing email id, and password. Once the vendor login to the app he will be able to deal with the assigned enquiries, and they can send the quotations with the delivery time. Vendors will purchase the subscriptions according to the locations they want to serve.

The Manufacturers can register themselves by providing email id, and password. Once the Manufacturer login to the portal, he will be able to add products and manage the vendors.

Admin will be able to manage the app by the backend. Admin will be able to manage the users and Vendors & manufacturers in an easy manner. Admin will assign the enquiries to the vendors.

3. Technology Stack-

3.1 Android: - (Front end)

Development framework (Android Jav)

Version Support: Android version 7 and up.

3.2 iOS: - (Front end)

Development framework (iOS Swift)

Minimum iOS Support: iOS 11

Maximum iOS Support: iOS 13

3.3 Web: - (Frontend)

Development framework (Laravel, HTML,CSS)
Web & mobile responsive.

3.4 Backend :- (Laravel)

3.5 Database:- (My SQL)

4. Payment Plan

A. Payment plan for App. Development.

S. No.	Task	Platform	Cost for Android Application Platform.	Cost for Android +iOS Application platform.	Time in Days (Working)
1.	User Panel	Mobile App	2,75,000.00 INR	4,25,000.00 INR	80 Days
2.	Vendor Panel	Mobile App.			
3.	Manufacturer Panel	Web portal.			
4.	Super Admin Panel	Web portal.			

B. Payment plan with web portal development for vendor panel .

S. No.	Task	Platform	Cost for web portal Development.		Time in Days (Working)
1.	vendor panel.	Web portal	45,000.00 INR		15 Days
Total Cost (A+B)			3,20,000.00 INR	4,70,000.00 INR	95 Days

***Taxes are excluded.**

5. Free Support

This is the support phase where we take care of the bugs which may be raised after final release and reported by users. After the completion of the app, 30 days free bug removal support (only on existing functionality) will be provided to you.

6. Incident Support

Incident support is a priority-based support where as soon as a ticket is raised, a dedicated resource will work on it. The Incident based support is chargeable per hour.

7. Direct Support

Direct support means dedicated support, in this case one dedicated resource is always there to resolve any issues or upgrade the application. This is charged on a monthly basis.

8. Note:

- All 3rd party API's and logos provided by the client.
- Time estimation may ramp up/down after getting clarification from the client on above mentioned important points and queries.
- Time estimation may ramp up if any extra functionality is requested by a client other than what we have mentioned above.
